|                  | 21 February 1986  |               |
|                  |   |               |
|                  |   |               |
| NOTE FOR:        |   | 25X1          |
|                  |   |               |
| FROM:            |   |               |
|                  | VC/CIPC   |               |
| SUBJECT:         | Combat Intelligence Analysis Report   | 25 <b>X</b> 1 |
|                  |   |               |
|                  |   | 0EV4          |
| 1. At            | ttached please find a copy of the subject report authored by find it relevant to your studies on NFIP Support for Contingency | 25X1          |
| Operations       | s and Intelligence as a Force Multiplier.   |               |
| -                | ou may recall that the DIRNSA initially requested a wide-ranging  |               |
| study, but       | t that the task force focused on the more narrow set of issues and  |               |
| referred         | the remaining problems to DoD.  |               |
| 3. II            | n calling your attention to this report, I am not suggesting that we  |               |
| should sin       | milarly limit the scope of the topics you are now undertaking. It   | 25X1          |
| is, howeve       | force in addressing the combat intelligence question. I suggest that  | 20/1          |
| you might        | want to talk with further about this subject.   |               |
